Charter of Environmental Health and Safety Committee

Purpose: To maintain a safe learning and working environment requires commitment and collaboration by the entire campus community. Safety is improved for everyone by open discussion, deliberation and participatory problem solving. Risk can be reduced and managed effectively when accurate information is shared from a large variety of resources. The committee is to provide consultative review of the University compliance programs and issues related to environmental health and safety for the purpose of providing a campus-wide safe and healthful workplace. It recognizes and promotes environmental health and safety issues as a high institutional priority. The Committee is responsible to and reports all findings and recommendations to the Vice President for Administrative Affairs.

Scope:

The Committee’s responsibilities include:

- Review reports related to employee injuries, student injuries, vehicle accidents and data for the purpose of identifying possible solutions and improvements for reduction of injuries and property damage
- Provide a campus forum for the purpose of bringing forth health and safety related issues and concerns for the Committee’s consideration and recommended action
  - Receive information forwarded from department safety committees

Members shall:

- Recommend methods for distribution of safety information
- Report committee meeting details back to all bargaining units and represented constituents
- Recognize systemic safety issues and bring them to the committee for consideration
- To encourage colleagues to take appropriate action when a safety hazard is identified

Membership:

The Director of Risk Management and Safety Services will chair the Committee. Unless membership is by virtue of position, membership will alternate on a three-year term, with a random first term assignment of members.
